PROFILE SUMMARY

Web developer with solid competencies in web design, front-end coding, knowledge of SQL and NoSQL databases, and experience as a QA Analyst. I have a rapid learning ability that allows me to master new technologies to solve complex problems and improve user experience through Design Thinking. I value teamwork and collaborate in different environments to achieve goals.

WORK EXPERIENCE

DevXpress   *May 2024 - July 2024*
Intern

- Built websites with HTML, CSS, Bootstrap, JavaScript, and PHP.
- Integrated dynamic features, ensured responsive design, and optimized web performance.
- Used GitHub for version control, deployed sites, and created a translation script with YAML, Bash, and Python.

SaravalenciaEstudio   *April 2024 - Current*
Freelance

- Developed a custom e-commerce site using WordPress and WooCommerce, including a booking system for appointments and video calls.
- Designed user-friendly interfaces, integrated payment gateways, and implemented SEO best practices.
- Coordinated with the client, provided updates, and conducted thorough testing for a seamless user experience.

Miranetworks   *December 2021 - October 2022*
QA Analyst & Web Master

- Prepared detailed reports on web and mobile app functionality during collaboration with Ab InBev.
- Oversaw project development, ensuring smooth progression and CMS-based adjustments.
- Developed Cypress automation scripts to enhance and streamline website functionalities.
